

Preston Ri'chard would like the members of Pipeliners Local Union 798 to know that being elected by a white ticket for a fourth term as President of this great Local is the high point of a long career in the pipelining industry. Having the privilege to work with the finest Welders in the world, gain knowledge and being able to pass that knowledge on to young Welders is what we as union members are meant to do. There is great satisfaction in seeing our Local grow and continuing to lead the pipeline industry in skilled manpower and the latest technology in welding processes. Once again, I would like to thank the entire membership for their trust and support over the past nine years; it has been one of the greatest jobs ever to work for the membership of Pipeliners Local Union 798.
